hereafter named „passenger“

will carry out together with

Last Name

First Name

hereafter named „Tandem-Pilot“

... a tandem passenger skydive. The tandem passenger jump is performed according to the guidelines of the German Sport Parachute Association (DFV) eV and is used primarily to promote skydiving in public.

The passenger is obliged point out to the tandem pilot if he / she:

- had a serious accident (broken bone, ligaments, concussion or similar) within the last 12 months,
- was receiving medical treatment in the last 12 months because of serious illness (heart, spine, spinal disc, high blood pressure, organ disease or similar) ,
- has suffered of a mental illness (including drug addiction, loss of consciousness or similar) in the last 12 months,
- has taken alcohol or other intoxicating supplement within the last twelve hours,
- is pregnant

Furthermore the tandem passenger confirms, that before the jump a full briefing on:

- jump, free fall, flying on an open parachute, landing,
- emergency procedures and insurance provisions

has been received and understood.

Where permitted by law, the passenger releases the tandem pilots and the holder of the tandem passenger system from all liability that goes beyond the standard rate for the passenger aviation accident insurance and / or the passenger liability insurance. If third parties derive claims from an accident, the tandem pilot, and the holder of the tandem passenger system is so far free from claim, as the use by a third party is no longer covered by the insurance of the tandem pilots and / or the holder.

The possibility to inspect the insurance policy documents at the tandem pilot has been mentioned.

Haßfurt,  Signature Passenger

If passengers are minors: Signatures of the legal representatives (both!)
